

## Retaining Walls

The House of Paving and Pots has the largest selection of pots, pavers and water features on the Central Coast. Visit our premises to view our extensive range.

Retaining walls are necessary in many situations. Necessity doesn't mean they have to lack aesthetic appeal or not compliment the over all design.

View some of our range in this brochure or call and see us to look at the complete range and discuss your specific needs.

## What is a retaining wall?

A retaining wall is a structure that holds or retains earth behind it. You can use many types of materials like concrete blocks, poured concrete, treated timbers, sandstone blocks, rocks and boulders.

Some are easy to use, others have a shorter life span.

Speak to us and discuss your specific requirements, we are sure to have a solution for you.

## Brick

Stylish and functional a brick retaining wall solution provides the DIY specialist with a means to complete a retaining wall project.

Available in numerous colours, shapes and sizes

Basic instruction provided

Large selection of manufacturers and materials

# Sandstone

Sandstone retaining walls, as well as providing the necessary structural strength, contain fabulous depth of colour.

Naturally porous allowing soil moisture to drain

Easy maintenance and repair

Relatively easy material to work with

The business has grown from listening closely to customer feedback resulting in an enterprise reflecting modern lifestyles. This evolution provides our team with the dynamic ability to best serve.

Have you ever looked at an old picture of yourself with a 'fashionable' haircut and asked "What was I thinking?" Landscaping follows fashion trends too, without the speed of change associated with hair design! Call today to discuss your garden tidy up, makeover or complete redesign.
